

# PRACTICAL MAGIC | Perfect tiles to suit your home

Tiles are extremely durable, practical and easy to maintain and add value to your home's floors and walls. At TILE AFRICA you are spoilt for choice with the extensive selection of porcelain, ceramic, travertine, slate and sandstone tiles.

Whether you're looking for a floorcovering that offers low maintenance or an attention-grabbing finish for your kitchen's splash-back area, you're sure to find the right tiles for your home at TILE AFRICA.

Polished porcelain tiles in light colours and bigger sizes such as 600 x 600mm or 800 x 800mm remain popular for living areas and create a marvellous sense of space, especially indoors, because of the light reflecting off the tile surface.

"By using the same tiles throughout an open-plan area you can create a seamless flow from one room to the next," says Kate van Niekerk, marketing manager for TILE AFRICA.

One way of adding both colour and texture to walls is through mosaics. Mixing materials is very fashionable at present and TILE AFRICA has beautiful mosaic sheets which incorporate glass, marble and metallic finishes. Don't be afraid to use these delicate tiles in your favour to add pizzazz

to your home's walls.

Tiles add style and elegance, from the bathroom wall to the patio floor, and with the wide selection of materials and colours available from TILE AFRICA you'll find the perfect tile to suit your home.

TILE AFRICA has 37 retail outlets nationwide. For more information about their stores and range of products, visit [www.tileafrica.co.za](http://www.tileafrica.co.za) or call the toll free number: 0800 002 783. Follow @tileafrica on [twitter](#) and like their [f](#) page for more creative and practical ideas with tiles.
