Fancy floors

FROM FLOORING CLASSICS
TO NEW FAVOURITES, TILE
AFRICA IS SURE TO IMPRESS

Your floors deserve as much thought and attention as the rest of your decor. Thanks to Tile Africa and their selection of premium tiles, achieving a stylish space underfoot is now easier than ever.

At Tile Africa you are sure to find the most up-to-date ceramic, porcelain and natural-stone tiles. Plus, the latest technology in tile manufacturing - Nano tiles.

'Nano technology in tiles involves a process that treats the tile's surface to attain a greater shine and richer colour, and improves protection against marking,' says Kate van Niekerk, Marketing Manager for Tile Africa. Making them ideal for high-traffic areas.

Nano tile offerings currently include 600x600mm double-loaded polished-porcelain tiles, as well as 800x800mm fourth-generation polished-porcelain tiles.

For more inspiration, visit a store near you - their lifestyle displays showcase the latest trends and decor styles in bathroom, kitchen and floor designs. Plus, look out for the brand-new edition of *connexions*. This beautiful coffee-table book is packed with ideas to excite and inform.
