

## the white idea

Transform your bathroom into a very special space with a vanity cabinet from Tile Africa

**NO LONGER SIMPLY THE** functional afterthought that it used to be, the modern bathroom is an essential feature that adds value to any home. In these design-conscious times, it needs to be good-looking and practical. With a vanity cabinet to store all the bathroom bits and pieces, your bathroom can be an organised place to relax, refresh and unwind.

Tile Africa has a vanity to suit the size and style of your bathroom. Keep the overall look clean, but give the room a fun splash of colour in the form of brightly hued accessories and towels. Available in a wide range of finishes and designs – from white to walnut and dark mahogany – there's a vanity to suit your space at Tile Africa. For extra design inspiration check out the brand-new edition of *Connexions*, a style guide compiled by Tile Africa and available at all 37 branches throughout South Africa.
