

# TILE AFRICA CONTRACTS

## - leading with expertise and experience

Bathrooms have various functions, from a luxurious bathroom in an upmarket residential development to bathrooms catering for high-footfall such as those in shopping centres. To ensure quality and longevity, it is important to specify and supply the correct products for the specific purpose that each individual bathroom will serve.

**TILE AFRICA CONTRACTS** has vast experience in supply and fitment of tiles and bathroom ware and they combine this experience with expert industry knowledge. Recently completed projects include the public bathrooms for the Orion Safari Lodge in Rustenburg, the Villa Cortona Retirement Village in Durbanville Cape Town, consisting of 146 free-standing houses, 78 apartments and 26 frail care and paraplegic units and the Elgin Mall in Kempton Park Gauteng where the division supplied and fitted the public bathrooms.

The Contracts Division is able to source locally manufactured materials and research particular specifications. "For the Villa Cortona development we had to adhere to certain requirements, such as walk-in showers with special shower attachments and easy access for wheel chairs," says Craig Irvine, national contracts manager of Tile Africa.

The division prides themselves in the ability to specify and deliver a wide variety of designs and themes, from modern and sophisticated designs to simple and clean layouts, no specification is out of bounds. There are a number of different approaches being incorporated into the elegant modern bathroom. "One such style is the natural look, which utilises natural stone cladding and listello, wood or bamboo wall hung bathroom vanities and tiles with warm earthy tones of browns, beiges and creams. This style will remain fashionable for some time to come," says Irvine.

Part of the division's success is the invaluable service offered to architects, contractors and specifiers. A key contact person or trained technician is intimately involved in each project, from inception to completion, ensuring design continuity and project success.

**TILE AFRICA CONTRACTS** is part of the long-standing and successful **NORCROS GROUP** made up of **JOHNSON TILES**, **TAL ADHESIVES** and **TILE AFRICA**, offering the construction industry professional peace of mind on their project requirements by efficient and consistent supply of quality products and services on a national scale.
