

Spacious retreat

with Tile Africa

A spacious bathroom is a home owner's dream, and offers tranquil freedom where you can unwind and pamper yourself.

"Just as with a small bathroom, thought needs to go into the design of an ample-sized bathroom," says Kate van Niekerk, marketing manager of Tile Africa. Planning will ensure that you select the right bath-

roomware and accessories that are proportionate in dimensions and will fill the bathroom without disarray.

An airy bathroom is the perfect fit for a freestanding bath as it can accommodate the bath in the centre of the room. Tile Africa offers a range of baths including freestanding and spa baths. Set a romantic

mood with an old-fashioned Victorian claw-foot bath or opt for a contemporary look with an oval freestanding bath.

Tile Africa has mixer sets in modern and classic styles that are especially designed for freestanding baths. These taps are fitted to the floor next to the bath, accommodating the bath which is positioned in the middle of the room.

A double-vanity fitted with two wash basins is ideal for a large bathroom and offers sufficient storage space. A large mirror with a wide wooden frame can be placed above it to match the size of the vanity unit.

Complete the design with accessories such as over-sized glass or metal vases and feature pieces that can be placed on the floor, bulky candles and big wicker laundry baskets.

Tile Africa offers a wide range of tiles, bathroomware and accessories to kit out your bathroom to match the latest design trends. Water-saving plumbing solutions are the latest addition to the product range at Tile Africa, and will allow you to save water usage and do your bit for the environment.
