

Outdoor elegance

with Tile Africa

Today's outdoor living areas are an extension of the home and tiles are the ideal wall and floor coverings for these spots where we love to entertain.

Tile Africa offers a wide range of tile options, including natural stone tiles such as slate, travertine and sandstone to create a welcoming outdoor retreat. Natural tiles create an organic look thanks to their earthy neutral tones and they offer the added benefits of excellent durability and little maintenance.

Slate is the perfect flooring option as it is porous, absorbs water and is therefore less slippery. Boasting striking variations of colour and pattern, slate tiles will transform a plain floor or wall into a design statement.

Look out for the brand new edition of *Connexions*, a style guide compiled by Tile Africa, which is available at all stores.

This beautiful coffee table book is packed with ideas to inspire, encourage, update and inform. Tile Africa is giving away a copy of *Connexions* to each SA Home Owner reader. Simply bring this page to your nearest branch and you will receive a complimentary copy, while stocks last.

Visit any of the 37 Tile Africa retail outlets nationwide where you'll be sure to find tiles to complement the style of your home.
