

as you *Like* it

Forget one-size-fits all, tailor-make your perfect shower experience with these tips from TILE AFRICA

No longer relegated to the sidelines, today's showers are showpieces that offer you the chance to express your creative flair. No matter whether you prefer to wash 'n go or take it slow, how big your bathroom is or how many people you share it with, make the most of your shower time with design tips from TILE AFRICA:

- **Spa-aaah!** To create a spa-like pamper space, look to nature for inspiration. Opt for a clear glass shower enclosure to let in natural light, complement neutral tiles with pebble mosaics and pick an extra-large shower rose with a tranquil rain-like spray.
- **A family affair.** Give a family bathroom an energetic feel using vibrant glass mosaics on the shower walls and floor. Up the fun factor by choosing accessories and towels in a complementary colour.
- **Mighty men.** For the ultimate macho power shower, opt for sleek metal or glass mosaics in shades of grey. Choose a bold, geometrically-shaped showerhead and introduce cool steel accents in the form of a metal shower caddy, shaving mirror and a squared-off towel rail.
- **Little wonder.** Curved corner or pentagon-shaped shower cubicles are real space-savers in a small bathroom. If you can't squeeze in a separate shower, opt for a two-in-one bath and shower combo, like the Plexicor Discovery shower bath.

Your perfect shower experience is just a shopping trip away – visit any one of the almost 40 TILE AFRICA stores nationwide to find a wide range of shower heads, cubicles, mixer sets and accessories.
