

Spring is just around the corner and there is no better time to revive and add colour to your home than with mosaic tiles that are durable and timeless options for floors and walls

TILE AFRICA offers a wide range of these delicate tiles in exciting materials, available at selected stores. From glass mosaics in a rainbow of colours, real marble in either polished or tumbled finishes, pebbles embedded in glass mosaics and even metal for a sleek urban look. 'Glass mosaic tiles add high-contrast colour to a neutral room and can be combined with larger tiles of different materials to create visual interest,' says Kate van Niekerk, marketing manager for **TILE AFRICA**.

Use mosaic tiles as a splashback in your kitchen, as a striking wall feature in your entrance area, or in the form of a colourful column in the bathroom. Be creative and use different colours, textures and patterns to impart your own personal style on your home's floors and walls. 'When you are renovating your bathroom, it is always a good idea to add mosaic tiles to give an instant boost of colour,' says van Niekerk.

Whichever way you choose to use them, mosaic tiles add a fun and playful atmosphere to your home by bringing a dull- and drab-looking room to life with exciting and colourful designs and shapes. Find more design ideas in the brand new edition of *connexions*, a style guide compiled by **TILE AFRICA**. This beautiful coffee-table book is packed with ideas to inspire, encourage, update and inform.

TILE AFRICA has 37 branches located nationally. For more information call 0800-002-783 or visit www.tileafrica.co.za. Follow **TILE AFRICA** on twitter for top tips, ideas and photos highlighting beautiful designs.

GIVEAWAY!

TILE AFRICA is giving away a copy of *connexions* to each **Top Billing** reader who visits one of our stores: simply show this page to our sales staff and we'll give you a complimentary copy (while stocks last, so hurry).
