

Patio pleasures

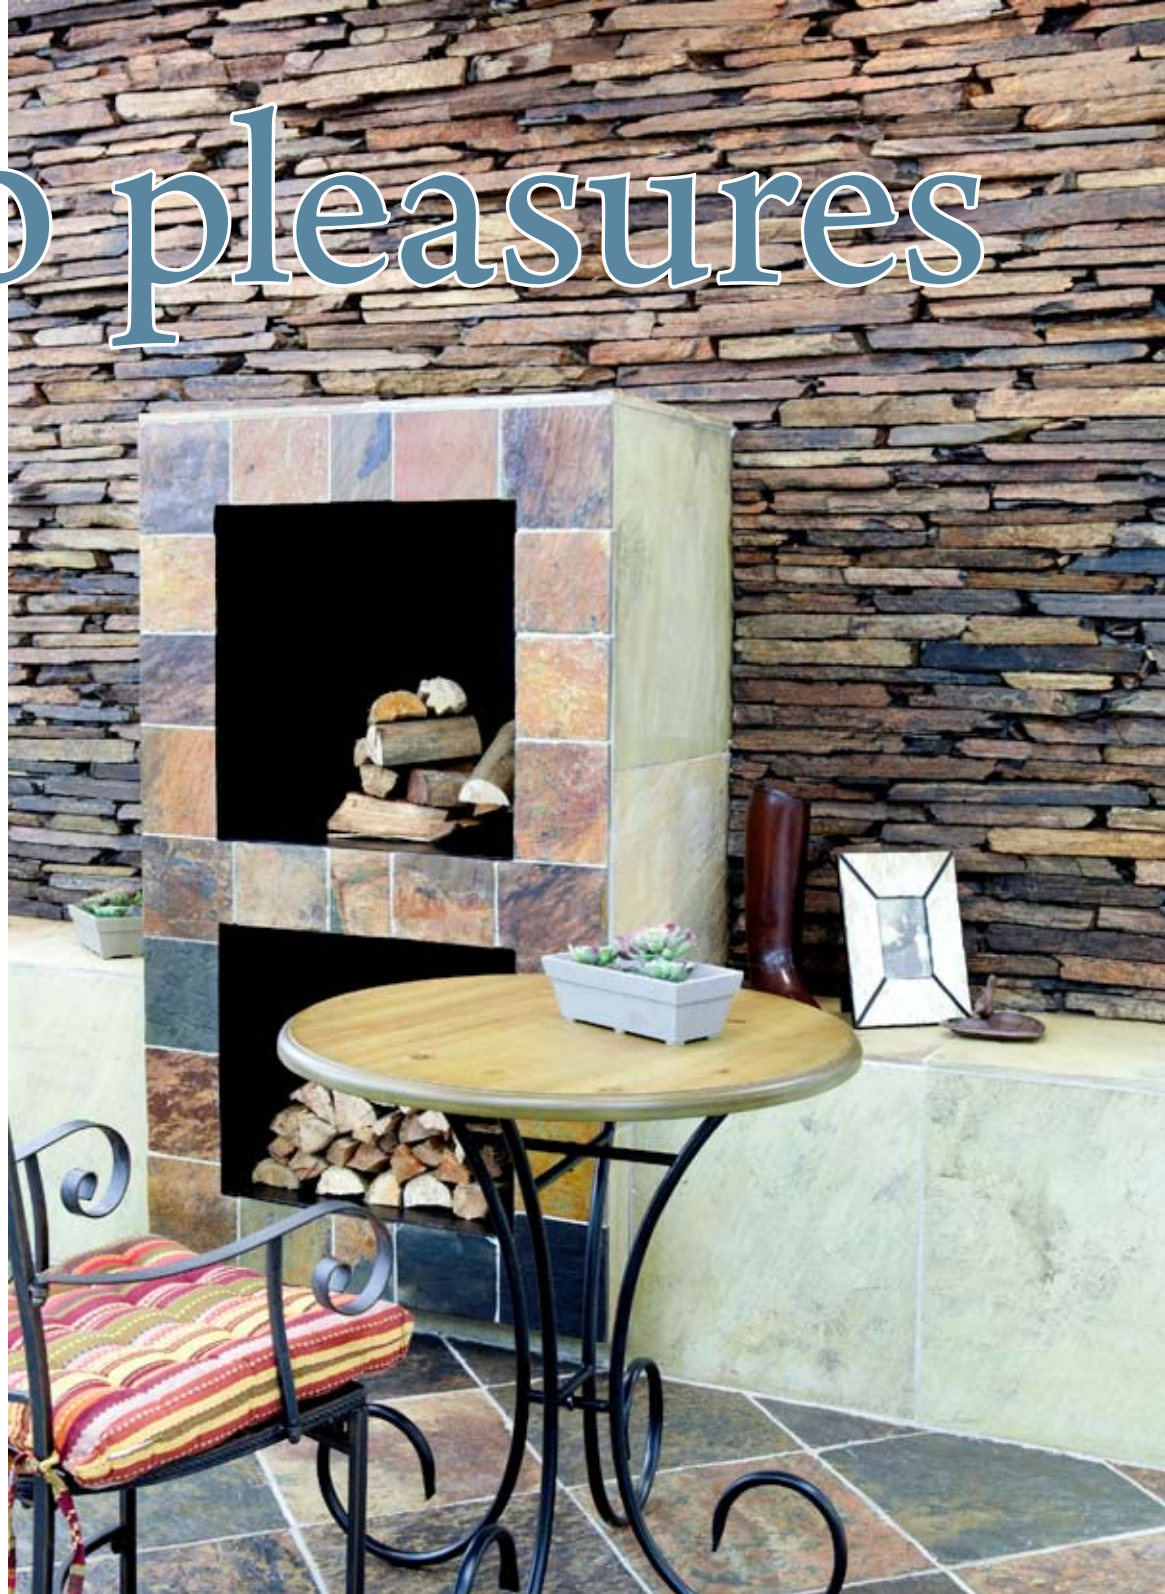

The balmy days of spring provide a perfect excuse to entertain and unwind outdoors and enjoy alfresco dining, Mzansi style. Transform your patio or braai area into a stylish and welcoming extension of your home with the striking range of natural stone tiles and cladding from **TILE AFRICA**

Bring that special something into your outdoor entertainment area with stylish slate and sandstone tiles. Made from natural materials, these tiles are highly robust and durable and can withstand harsh weather conditions, making them ideal for outdoor living areas.

In addition to being a practical option, natural stone tiles will beautify any outdoor area, thanks to the distinctive character of each tile. 'Natural tiles create an organic look thanks to their earthy neutral tones and they offer the added benefits of excellent durability and low maintenance,' says Kate van Niekerk, marketing manager for **TILE AFRICA**.

Slate's striking colour and pattern variations will turn a plain floor or wall into a design statement. It is resilient and extremely hard-wearing, giving you a lifetime of pleasure. As slate is porous and so less slippery, it's perfect for areas close to your pool. So all you have to do is sit back, relax and enjoy that bottle of bubbly with friends in your stylish outdoor haven.

Sandstone cladding and mosaic designs in sandstone create eye-catching textured walls and have become a popular choice due to the natural look they create, completing the earthy theme. Natural products should be sealed for their protection.
