

AFRIKAANSE HOËR SEUNSKOOL SWIMMING POOL

The refurbishment of Afrikaanse Hoër Seunskool required a comprehensive tiling system using specially imported Interbau-blink tiles. These tiles provide an attractive and technically sound solution for public sports facilities, as well as public, therapeutic, or private pools. Renowned for their durability, color fastness, and resistance to fading, Interbau tiles ensure long-lasting quality. Each project involves collaborating with the customer to specify and supply a tailored system for their pool. The range of products includes anti-slip coping with hand grips and safety markings, gratings, anti-slip tiles for the pool surroundings, and colored tiles for the scum line, main body, and lane markings of the pool. The complete selection of purpose-specific tiles is provided along with detailed specifications for tile adhesive and grout installation.
